

August 25, 2015

In September 2012, BMO Harris Private Bank engaged E. Cooney Associates as a consultant to assist in a complex environmental matter involving an industrial parcel of property. The main objective was to obtain a No Further Remediation (NFR) letter from Illinois EPA.

The services you provided in preparing a site investigation report and providing expertise advice on the pros and cons of enrolling and working with the Illinois Site Remediation Program (SRP) in various capacities was very beneficial. In addition, the monthly updates regarding budget and timelines kept BMO Harris well informed of activities and costs associated with the property. We are grateful for your involvement in obtaining estimates, hiring and scheduling subcontractors and overseeing the performance of work. Your knowledge in this field provided solutions for several unforeseen problems which lead to obtaining the NFR letter and the eventual sale of the property.

The work provided by E. Cooney Associates Inc. exceeded expectations. Thank you.

*Sincerely,
Terence M. Walsh
Vice President
BMO Harris Private Bank*

Our District was incredibly pleased with Dr. Cooney and his associates. Throughout the process his professionalism was exemplary and his thoroughness gave our Board and Staff the confidence to proceed with a very difficult challenge. Dr. Cooney's written documentation, as well as his testimony made the difference in our success. Whenever we need environmental studies of this nature in the future, we will contact Dr. Cooney before proceeding. Throughout the process he was sensitive and responsive to our needs. We can't thank him enough!

*Dr. Lawrence S. Reiner Ed. D.
Executive Director
Butterfield Park District*
